

-  TROA Special Zones
-  1:24000 USGS/ US TOPO Topographic Map Quadrangle

Note:
This exhibit is a representation of the Special Zone Location Map (see TROA Appendix 10.A) used to identify specific location and design criteria for groundwater wells with respect to certain hydrologic (geographic) features. Existing and proposed wells within the Truckee River Basin, meeting established criteria defined in TROA section 10.B, can be conclusively presumed to comply with TROA and the Settlement Act.
