			REMARKS:			TCID has requested that the remaining water in Donner Lake be released and used to maintain the Floriston Rate. The Donner release will be increased after discussion with TMWA regarding ramping schedules. As the Donner release is increased, the Boca release will be reduced by a like amount to target 400 cfs beginning tomorrow. We will reduce the Boca release by 50 cfs tonight and 50 cfs in the AM to adjust for the Floriston Rate drop to 400 cfs.

Note							TMWA's Donner water exchange to Boca was completed last night. TCID has requested that the remainder of the water in Donner be released over the top of Rates and passed over Derby Dam to Pyramid Lake for Recoupment Repayment consideration. We increased the Boca release last night to compensate for the Change in Donner water usage. The new target at Farad will be 500 cfs Rates + Donner draft.

TCID has requested that the remainder of the water in Donner be released over the top of Rates and passed over Derby Dam to Pyramid Lake for Recoupment Repayment consideration. We will increase the Boca release to compensate for the Change in Donner water usage. The new target at Farad will be 500 cfs Rates + Donner draft.
