GH 5.55	5:30 AM 480	The cold temperatures and ice are causing problems with the river gages. The carryover SW in Boca is decreasing quickly. Increasing the Lake Tahoe release to offset some of the SW release from Boca. TMWA has again requested the "release of water for the removal of ice," per Article III (E) (2) of the Truckee River Agreement. We will not reduce the Boca release to compensate for the Tahoe increase in order to provide the extra Ice Water.
